

My name is Tom Kielma. I live on Forest Drive on the north east side of Moose Lake. My family has lived on Moose Lake for 27 years and we absolutely love it here. I am married to my wife, Amy, have 4 daughters (all married) and have 6 grandchildren (with 1 more on the way).

I retired from dentistry last December, after 45 years of serving patients, with offices at St. Luke's Hospital in Milwaukee and in downtown Delafield. Throughout my career, I was very active in leadership at the local and state levels of dentistry. I was involved in the Greater Milwaukee Dental Association and served as President and served on the Board of Trustees of the Wisconsin Dental Association. I also served as Treasurer of the International College of Dentists—Wisconsin Section.

I enjoy Moose Lake for its healthy mix of activities on and off the water. Over the years our family has enjoyed the summer activities of skiing, tubing, kayaking, paddleboarding, swimming, and fishing here on the lake. In winter we have enjoyed cross country skiing, snowshoeing, ice fishing and walks around the frozen lake.

What we all experience here on Moose Lake is something truly special--one of the cleanest and clearest bodies of water in this part of the state.

Participation of ALL lake owners is crucial to the success of the MLAA to keep the lake vital. Bonding of lake owners will build a strong and healthy community feel here on the lake.
